Further, a minimum of USD 33,000 must be derived from income associated with risk-protection products (new or renewal/trail, products eligible for Risk-Protection Credit under the commission or premium methods). It is possible that the same business, such as the sale of new life insurance policies, could satisfy both requirements.
- Income is defined as first-year, trail and renewal commissions, as well as fees for product placement, asset management fees and fees for advice. Other production-based compensation, such as salaries and production-based bonuses, would also be eligible for credit.

**The income requirement for applicants outside the United States may be found on page 7.**
